

March and the first quarter of 2022

AGRICULTURE

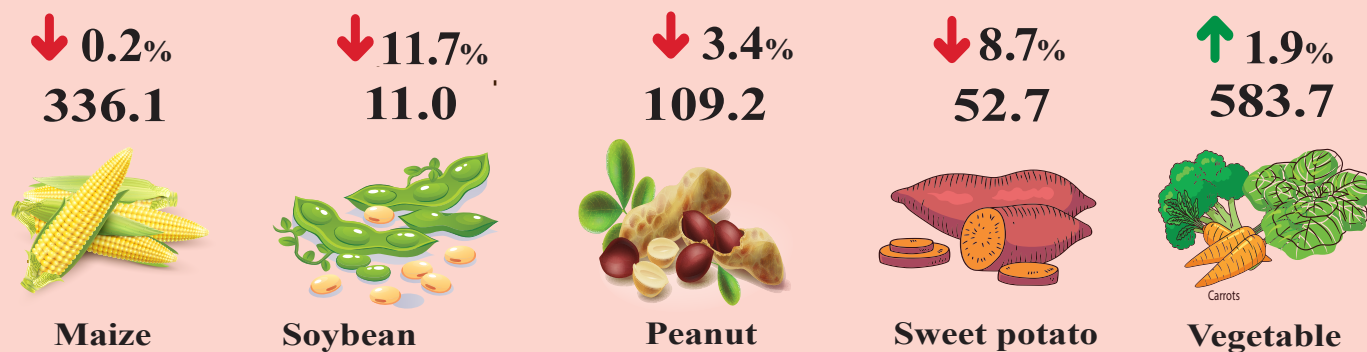

Agricultural production in the first quarter of 2022 had favorable weather for growth and development of rice however, due to the complicated developments of the Covid-19 pandemic, it has greatly affected the production and consumption of agricultural products.

The area of spring rice cultivation (As of 15/3/2022)

Spring crops as of 15/3/2022 (Thous. ha)

Livestock population in March 2022 compare with the same period in 2021
